CS533: Information Retrieval Systems

Assignment No. 2

February 23, 2016

Due date: March 1, 2016; Tuesday, by class time (hardcopy is required, I expect to have a short report: about 2 pages)

Notes: Handwritten answers are not acceptable.

This assignment is for students who will not do News Chain Annotations.

1. What is investigative journalism?
2. Find an article on investigative journalism (preferably from the ACM Digital Library). Give its citation.
 - Summarize the paper.
 - Explain its strong and weak aspects.
 - Describe its relation to our class subjects..
3. What kind of software system would you recommend for investigative journalism, i.e., what kind of functionalities should it provide.
