

CS468 – Project Stage 7

Final Stage

What is Required for PS7

- **Questionnaire :**
- You will prepare a questionnaire including questions about your system (**10 questions at least**). Such as,
 1. I find the system easy to use.
(Strongly Disagree - 1 , 2, 3, 4, 5 – Strongly Agree)

What is Required for PS7

- **Questionnaire :**
- You will analyze the answers of the questionnaire applied to **20** different people.
- Write the average values of each answer for the questions in the questionnaire given by 20 people

Q1	Q2	Q3	Q4
5	5	4	5

What is Required for PS7

- **Questionnaire :**
- **And finally evaluate the results of the questionnaire by giving your findings for each question shortly. Such as,**

Q2. I learned to use the system quickly.

Analysis of questionnaire shows that people

What is Required for PS7

- **Usability Goals:**
- In the second part of the report, usability goals from Project Stage 2 will be evaluated. Which usability goals are achieved and which are not.

What is Required for PS7

- **User Tests:**
- Make simple user tests (**4 users**) like in project stage 4, but this time there is not need a team member to pretend as a computer.
- A facilitator (for helping the user) + note takers
- Give some specific tasks and find usability problems if exists and put them into the report (**2-3 pages**)

What is Required for PS7

- **Submit the new version of your applications according to the evaluations you have made.**
- **In summary, report should have questionnaire result + usability goal results + results of the user tests**

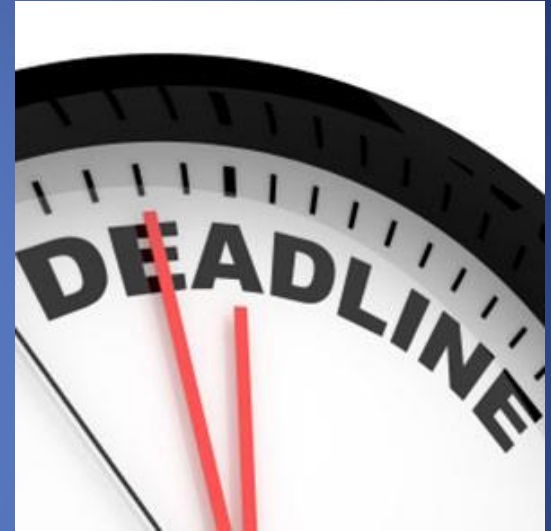

Submission

Demo:

12.05.2013, 09:00

Deadline:

15.05.2013, 23:59

- Submit:

pdf file named: **GXX_PS7.pdf** (report)

zip file named: **GXX_PS7.zip** (code)
