

CS 201: Fundamental Structures of Computer Science I

Fall 2010

Instructors: **Selim Aksoy** (*Sections 1 & 2*)
EA 423 (Engineering Building), x3405
saksoy@cs.bilkent.edu.tr
Office hours: Tue 13:40-15:30

Aynur Dayanık (*Sections 3 & 4*)
EA 405A (Engineering Building), x3441
adayanik@cs.bilkent.edu.tr
Office hours: Wed 15:00-17:00

TAs: Esra Akbaş (EA 522, eakbas@cs.bilkent.edu.tr)
Hüseyin Gökhan Akçay (EA 130, akcay@cs.bilkent.edu.tr)
Mehmet Çelik (EA 130, mcelik@cs.bilkent.edu.tr)
Süleyman Fatih İşler (EA 522, suleyman@cs.bilkent.edu.tr)

Lectures: Mon 15:40-17:30, Thu 13:40-15:30, BZ04 (*Section 1*)
Tue 15:40-17:30, Fri 13:40-15:30, BZ04 (*Section 2*)
Wed 08:40-10:30, Fri 10:40-12:30, BZ04 (*Section 3*)
Wed 13:40-15:30, Fri 15:40-17:30, BZ04 (*Section 4*)

Course Websites: <http://www.cs.bilkent.edu.tr/~saksoy/courses/cs201> (*all sections*)

Text Books: (*Required*) F.M. Carrano, *Data Abstraction and Problem Solving with C++*, 5th ed, Addison-Wesley, 2006.
(*Recommended*) H.M. Deitel and P.J. Deitel, *C++ How to Program*, 6th ed, Prentice Hall, 2008.

Course Emphasis and Goals

This course introduces the abstract data types of lists, stacks and queues, and shows how one can implement them in C++ using fundamental data structures. It also introduces recursion and algorithm analysis.

Grading Policy

Quizzes: 15% (closed-book, closed-notes, no A4 sheet is allowed)
Homework: 20%
Midterm: 30% (closed-book, closed-notes, no A4 sheet is allowed)
Final: 35% (closed-book, closed-notes, no A4 sheet is allowed)
The instructors reserve the right to set thresholds for passing grades.

Quizzes

There will be five in-class quizzes. Quizzes will be given in class with advance notice; the topics covered by each quiz will also be announced in advance. The quizzes will be closed-book and closed-notes, and you may not bring an A4 sheet with you. There will be NO make-up quiz.

Homework Assignments and Late Policy

Homework assignments will be posted on the course web site about two and a half weeks before their due date. Assignments are expected to be turned in by 18:00 on the due date. For the late

assignments, each student will be given a total of three grace days (whole or partial) for the whole semester. Once these late days have been exhausted, no late assignments will be accepted. As an example, if Student A submits her/his 1st assignment 29 hours late, s/he will have used two late days and have only one day left. If Students A then submits her/his 2nd assignment 5 hours late, s/he will have used her/his remaining late day. If Student A submits her/his 3rd assignment 1 minute late, this assignment will not be accepted. Note that no late submission will be allowed for the last homework.

You should upload your homework using the online submission form before the deadline. Your submission must include your source code; no hardcopy (printer output) will be required if it is not announced otherwise. Always make sure that the code you submit does compile and run correctly. Graded assignments are to be picked up from the TAs during their office hours. Late submissions should also be done through the online submission form.

Academic Integrity

Copying or communicating during an exam is considered cheating. Students caught cheating in an exam will be subject to disciplinary action, as explained in the “Student Disciplinary Rules and Regulation” (www.provost.bilkent.edu.tr/procedures/AcademicHonesty.htm).

Academic integrity is a problem on programming assignments. Please refer to the [“Honor Code Statement”](#) to understand which actions violate the academic integrity. Each student is expected to read and understand this [“Honor Code Statement”](#) and return a signed copy of this form to his/her instructor. For those who do not return the signed copy, the homework assignments will not be graded. Students caught cheating on assignments will also be subject to disciplinary action.

Schedule

Week	Subject	Reading	Assignments/Exams
1	Introduction	Ch.3, Ch.4, Ch.5 (Deitel)	
2	Case study	Ch.3, Ch.4, Ch.5 (Deitel)	
3	Functions	Ch.6 (Deitel)	
4	Arrays	Ch.7 (Deitel)	Quiz 1 (Oct. 4-6)
5	Pointers	Ch.8 (Deitel)	HW 1 out (Oct. 14)
6	Pointers	Ch.8 (Deitel)	
7	Pointers	Ch.8 (Deitel)	Quiz 2 (Oct. 25-27)
8	Case study	Ch.9, Ch.10 (Deitel)	HW 1 in (Nov. 1) HW 2 out (Nov. 4)
9	Recursion	Ch.2 (Carrano)	Quiz 3 (Nov. 8-10)
10	Algorithm analysis	Handout will be available	HW 2 in (Nov. 22) HW 3 out (Nov. 25) Midterm (Nov. 27)
11	Lists	Ch.3, Ch. 4 (Carrano)	HW 3 in (Dec. 6) HW 4 out (Dec. 6)
12	Lists	Ch.4 (Carrano)	Quiz 4 (Dec. 6-8)
13	Lists	Ch.4 (Carrano)	
14	Stacks	Ch.6, Ch.5.2 (Carrano)	Quiz 5 (Dec. 20-22) HW 4 in (Dec. 23) HW 5 out (Dec. 23)
15	Queues	Ch.7 (Carrano)	
			HW 5 in (Jan. 10)
